

We continue to Grow!

We are pleased to announce that as of September 2014, the Cite Soleil clinic re-opened with a MICECC employed Haitian medical staff to provide care in the Cite Soleil clinic and on our Repatriote campus. Samaritan's Purse, who partnered with us after the earthquake, left our campus in early August to focus on other areas in Haiti. We are grateful to them for their assistance but are very excited about our new staff. The MICECC clinic, under the leadership of Dr. Etienne Quency, with assistance of Dr. Eric Innocent, 4 nurses and security personnel, will be open Monday through Friday, with shorter days on Tuesday and Thursdays to allow time for community health activities including providing vaccines and patient education. The staff will travel to the Repatriote campus one day a week starting in early January, 2015. We welcome the new staff and this new beginning!

We still need HOM volunteer medical and dental teams to supplement the care provided by our staff as well as funds to help pay for medicines and supplies. Please consider joining us in 2015 – there are still many opportunities for you to serve. Contact [medtrips@haitioutreachministries](mailto:medtrips@haitioutreachministries) for more information about medical or dental missions in Haiti. If you wish to make a donation to help support the clinic, just note on the memo line "clinic fund" and send to HOM, P.O. Box 97, Doswell, Va. 23047.
